Dear Marianne,

Thank you very much for the entertaining and informative program. The children had a great time learning about manners magic words, correct table manners, table topics, and telephone etiquette. The smiles on the children's faces was evidence of how much fun they had.

Marianne, you had a very nice way with the children, keeping them engaged and interested throughout the entire presentation. We would recommend your program to anyone interested in a fun and exciting program.

Thank you again.

Sincerely,

Claudette Logan, Co-Director
